## SUMMARY

---

I'm continuously learning and enjoy applying what I know to build practical solutions. Exploring new technologies and finding ways to use them in meaningful projects is something I genuinely enjoy.

## EDUCATION

---

**IES College of Technology, Bhopal, Madhya Pradesh, Bhopal, India** - *BTech, Computer Science* **2022 — Jul 2026**  
*Engineering - GPA: 7.7*

**Maharishi Vidya Mandir – Bhopal, Madhya Pradesh, Bhopal, India** - *Highschool diploma, Secondary* **2021 — Jul 2022**  
*Education - GPA: 6.2*

**Maharishi Vidya Mandir - Bhopal, Madhya Pradesh, Bhopal, India** - *Highschool diploma, Higher* **2019 — Apr 2020**  
*Secondary - GPA: 6.0*

## EXPERIENCE

---

**Virtual Internship, Palo Alto Networks** **Jan 2025 — Mar 2025**

- At Palo Alto Networks, developed an understanding of fundamental cybersecurity concepts and gained exposure to cloud security frameworks, security operations center (SOC) workflows, and network security technologies, including learning about incident response processes within a security operations center environment.

## PROJECTS

---

**Rewindly, [Link](#)**

- Retro style modern music player everyone loves
- It's more than a utility music player — it's an experience app. If you lean into that (retro meets modern), Rewindly can stand out in a crowded music-app space
- Tech Stack – React, Vite, TailwindCSS, APIs – Spotify, Shazam

**Peer Task, [Link](#)**

- Student Micro Task Collaboration Platform
- A trusted space for students to exchange academic tasks, earn value, and support each other within their campus network, with optional payments or favors in return.
- Tech Stack – MERN Stack – powering a smooth, responsive UI and secure, real time collaboration

**Secure Sight, [Link](#)**

- Cyber Security Dashboard
- Your complete cybersecurity command center. Explore tools, boost your awareness, and discover the inner workings of digital security in an engaging and fun way.
- Tech Stack - HTML, CSS, JavaScript – the building blocks of SecureSight's interactive and engaging cybersecurity dashboard

## SKILLS

---

**Programming Languages** : Python, C/C++, Java, Javascript, Firebase

**Web Development** : React.js, Node.js, Flask, Figma, Front End, TailwindCSS

**Database Management** : SQL, OracleDB, MongoDB

**Tools&more** : Github, Spline, Visual Studio Code, Docker

**Core Concepts** : OOPs, Data Structures and Algorithms, Computer networks, Operating system, IOT, Security Operations, Cyber Security

## ACHIEVEMENTS / CERTIFICATIONS

---

**3rd rank in National Robotics Competition**

Led a team of 5 to secure 3rd rank among 20+ teams in a National Robotics Competition.

**Global Rank 4814 in TCS CodeVita Season 12, TCS**

Global Rank 4814 in TCS CodeVita Season 12, a global coding competition with over 300,000 participants.

**Participation in Cyber Threat Hunt, SAGE**

Participated in Cyber Threat Hunt.

**Foundation of Cloud IOT, NPTEL**

**Cryptography and Network Security, NPTEL**
